Land Rover Owner's Guide

Your Customer Speed Number

As the name suggests, the use of your "speed number" allows us to quickly draw up your name and address on our computers whenever you call. This means shorter phone calls and no confusion over whether you're John Smith of San Francisco or John Smith of San Juan. Take a minute to fill out the quick-reference chart below to make ordering the right parts for your Land Rover a breeze. *You'll find your six digit speed number above your name on all mailings and invoices.*

Quick Reference Table of Contents

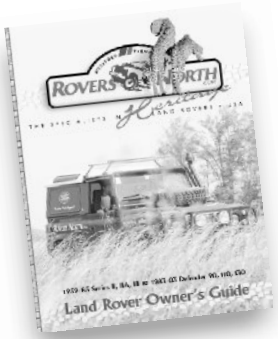

We believe the cheapest parts are not necessarily the least expensive.

The majority of the parts contained in this catalog are Land Rover Genuine Parts. Land Rover Genuine Parts are under constant development to improve performance and durability, bringing you the latest technology in parts for your Classic Series Land Rover and Defender. This means that, not only will a Genuine Part fit correctly, it will last the longest and in most cases last longer than the part it replaces. So, if you want to improve your Land Rover rather than just simply fix it, insist on only Genuine Land Rover Parts. Nothing fits like them, last like them, or is guaranteed like them.

ProLine In cases where Land Rover no longer offers a Genuine Part, we have sourced our own high quality replacement parts. In addition, we are pleased to offer selected alternatives from original equipment manufacturers to provide you with a quality choice based on price.

Our goal is to offer our customers the most comprehensive parts and accessories selection in North America.

Welcome to Rovers North

In your hands is our official Parts Guide, representing nearly 35% of our in-stock inventory. This is written for the enthusiast who is serious about long term ownership and who understands the difference between high quality and cheap spurious parts.

Like yourself, we too drive classic Land Rovers and enjoy them immensely. We have amassed considerable technical knowledge and mechanical experience, and make this immediately available to you when you call.

So don't hesitate to enjoy your Land Rover. Use it with the confidence that we are only a call away with comprehensive parts and technical support. We appreciate the opportunity to be of assistance to you and your Land Rover.

Thank you for choosing Rovers North,

Andrea and Mark Letorney

LEAVING A GOOD IMPRESSION

Ordering Information

The majority of our orders are taken by telephone. You may request an order form, should you prefer to order by mail or fax. Or, you may order on-line from our web site at www.roversnorth.com.

Your telephone call will be answered by one of our trained product

Rovers North on-line parts catalog.

specialists, a Land Rover owner like yourself, who will be able to assist you in diagnosing your Land Rover's needs. When ordering, it's important to give us the year, model and engine type of your Land Rover. If you are unsure of your Land Rover's year and model, refer to Identifying Your Land Rover on page 4 & 5 of this catalog. If you are still unsure, we will be glad to help you. If you do not see an item in this catalog, please ask for it. This parts guide represents only 35% of our in-stock inventory. For parts not in stock, we are happy to special order them for you from Land Rover Parts. We are computer linked directly to Land Rover's main U.K. warehouse for fast air service or economical ocean freight.

Customer Support

Our goal is to make parts ordering a quick and enjoyable experience. Our specialists will help you with all of your Land Rover questions. From diagnosing mechanical faults, to advising the correct restoration procedures, we look forward to helping you in every way that we can.

Satisfaction Guaranteed

If you are not satisfied with any item you have purchased from us, you may return it with a copy of your invoice and completed return form for a full refund or exchange within 30 days of purchase. An invoice and a return form are included with each order from Rovers North.

All parts and accessories sold by Rovers North are guaranteed to be free from defects for 12 months, unlimited mileage to the original purchaser. Should you suspect a defective part, just return the part with a copy of the invoice and an explanation of the problem. If defective upon inspection, we will promptly send you a replacement at no charge. Please understand that this guarantee is limited to the part we sold you and does not cover any labor or other parts associated with the defective part. Should you or Rovers North make a mistake and you receive the wrong part, please call us immediately so we can send you the correct part as soon as possible. If it is our mistake, we will pay the additional shipping.

Return Policy

A parts return form is enclosed with each package shipped. Any part can be returned to Rovers North for any reason without prior authorization up to 30 days after an order is received, with no restocking fee, except special order parts ordered per customer request. Special order parts per customer request and parts returned after 30 days are subject to a restocking fee.

Shipping Information

Orders for in-stock items taken by 3:00 pm EST are shipped the same day. After this time, your order will be shipped the next business day.

We ship U.P.S. unless you prefer another method. U.P.S. offers regular Ground, 2nd Day Air and Next Day Air for overnight delivery. Larger items will be shipped via truck. Orders from outside the continental U.S. will be shipped parcel post, U.P.S. or Air Freight. International orders please contact us for best shipping methods.

Prices in this catalog supercede all previously published prices. Prices and item availability are subject to change without notice.

Rovers North Inc. is the authorized Land Rover Genuine Parts distributor for Series I, II, IIA, and III Land Rover products in the territories of the United States of America and Canada for Rover Group Ltd., Solihull West Midlands England.

By Series

Land Rover began in 1947 with the Series I and continued until 1985 manufacturing the Series III model. This identification was initiated by Land Rover as a means of identifying major design changes in production. They did not intend to change them on an annual basis. The designers felt that they had this "agricultural workhorse" so right from the start, that annual cosmetic styling would only detract from its functional applications.

By wheel base

Land Rover wheel base is measured from the hub center of the front wheel to the hub center of the rear. (example: model 88 is 88" from hub center to hub center). The exception being the 90 which is actually 92.9" wheel base.

Birth of a Legend

The prototype Land Rover built September 1947 featured a center steering wheel, negating the need to build RHD and LHD models. The vehicle was essentially a U.S. built Jeep with a Rover designed aluminum skinned body. Rover car engine and main gearbox. It was scrapped in the spring of 1948. 1948 pre-production Land Rovers were built in the first half of 1948. As the last of the pilot built vehicles were being finished, production vehicles were already coming off an adjacent assembly line.

Series I - 1948 into 1958. First production Land Rovers were 1.6 litre petrol 80" wheel base. 1952 engine displacement was increased to 2.0 litres. 1954 the wheel base was lengthened to 86 inches and the first long wheel base 107" pickup was introduced. 1956 86" and 107" were lengthened to 88" and 109" and the 2.0 litre diesel became available as an option.

Series II - 1958 thru 1960. All new body designed by Rover's styling department. A more powerful 2.25 litre petrol engine is introduced for improved performance. Available in 88" and 109" wheel base and a broader range of colours.

Series IIA - 1961 into 1971. 88" and 109" wheel base. 1962 2.25 diesel and the Forward Control model introduced. Positive earth electrics until 1967. Fall of 1967, Land Rover introduces the 2.6 litre, 6 cylinder station wagon and Ser. IIB 110 forward control. Land Rovers are now in negative earth with single wiper motor mounted in dash. 1968 air portable 88" for military purposes is developed. 1969, headlights are moved from the center radiator grille to the side wings. 1971, Forward Control production ended.

Series III - Fall of 1971 to 1984. Revised fascia with black plastic safety dash. Instruments moved in front of driver, fully synchronized gearbox, and plastic radiator grille. 1972 Land Rover introduces its V8 powered 101" Forward Control. In 1979 Land Rover introduces its V8 109" Regular and 109" Station Wagon models. In 1982 Land Rover introduces its 109" High Capacity Pickup.

110 - 1983 to present. All new coil spring suspension with full time 4WD from the Range Rover design is incorporated into the 109 body styles. Available in a 2.5 petrol, 2.5 diesel, V8 petrol carburetted or fuel injected and a 200Tdi turbo diesel. 5 speed manual gearbox is standard. First imported to the USA for the 1993 model year. 1994, improved 300 TDI diesel becomes standard engine with only the V8 offered as optional.

90 - 1984 to present. A smaller version of the 110 with a 93" wheelbase, it replaced the series III 88" lineup. Shares the same engine and gearbox options as the 110.

130 - Introduced in 1985. A 127" wheelbase version of the 110. Aimed at the commercial market it is ideally suited for special body conversions. Also offered in six wheel drive. After manufacture most 130s are finished at Land Rover's Special Vehicle Operations facility at Solihull. Here 130s are completed to the customer's own design and specification.

Rovers North stocks parts for 80", 86", 88", 90", 101", 107", 109", 110" & 130" Land Rovers.

1) Series I, 80" 1948-1953

May 1950, headlamps protrude through grille. Mid 1951, inverted "T" grille (as Series II's). Side lights move from bulkhead to wings. Pre mid 1951 models for U.S. market had bulkhead lights relocated to wings to comply with lighting regulations. 1949-1951 Tickford Coachbuilders produced 650 Station Wagons.

2) Series I, 86" 1953-1957. Station Wagon

A redesigned vehicle with increased load space. Wheel base lengthened to 88" 1957-1958 to accommodate new engine.

3) Series I, 107" 1953-1957. Pick-up with 3/4 canvas

Same design as basic 80" with much larger load space. Wheel base lengthened to 109" 1957-1958 to accommodate new engine.

4) Series I, 107" 1956-1958. Station Wagon

Redesigned rear body with doors and seating for additional passengers.

5) Series II, 88" 1958-1961, Hard Top

New body style, includes sill panels to conceal chassis, fuel tank exhaust pipe. Available as pick-up, soft top and station wagon.

6) Series II 88" 1958-61 Station Wagon

Station Wagon had a full hard top with tropical roof, sliding windows, fresh air vents and alpine windows. Rear door and full interior trim with seating for 7 people.

7) Series IIA, 109", 1961-1971. Pick-up with 3/4 canvas

The "regular" or "two door" 109" was available in North America in Series II and IIA from 1958 to 1966. Petrol or diesel engine.

8) Series IIA, 109", 1961-1971 Station Wagon

Originally a 10 seater it was "re-launched" as a 12 seater to "get around" British tax laws. 2.6 litre 6 cylinder petrol engine was introduced in 1967. The 109" SW was available in North America in Series II and IIA form from 1958-1967.

9) Series IIA, 88" 1961-1971, Military Soft Top

Designated "1/4 ton" in British military service. Available as a "general service" vehicle with 12v electrics or a "fitted for radio" vehicle with 24v electrics.

10) Series IIA, 109", 1961-1971 Military Ambulance

Custom built rear body built by Marshals of Cambridge. In addition to regular military specs. These vehicles had front and rear sway bars.

11) Series IIA, 109" "Dormobile" Conversion

Molded fiberglass, side hinged roof section, opens for added head room and loft sleeping space. Interior fitted with special seats, sink, cabinets and stove. Some vehicles had side lights mounted atop wings so that fuel and water cans could be carried atop the front bumper.

12) Series IIA, 109", "Carawagon" Conversion

Competitor to the Dormobile, this camper conversion uses wood to extend the standard roof, usually fitted to a regular 109".

13) Forward Control Ser. IIA, IIB 1961-1970

Utilized many of the same mechanical components, like engines, as normal Land Rovers. Massive 5'4" x 10'5" load bed was rated for a 3,380 lb. load. Ideal for special purpose platforms, many were fitted with hinged drop sides and tailgate. Removable corner posts allowed it to convert to a flatbed in minutes.

14) Series IIA 88" 1969 "Bugeye"

Lighting regulation in Australia required moving the headlamps from the radiator panel to the wings. Land Rover had not yet designed a proper panel to accept the lights. So they sat on the surface. This interim model, between the so-called "early" IIA and "late" IIA is commonly referred to as the "Bugeye".

15) Late Series IIA, 88", Fall 1969-1971, Soft Top

New front wing panels with recessed headlamp. Available as hard top, station wagon and pick-up model. 21/4 litre petrol or diesel engine. Sill panels narrowed from 5" to 3".

16) Series III, 88", Fall 1971-1985 Pick-up with 3/4 canvas

Plastic radiator grille replaces wire mesh type. Revised instrumentation - moved from central position to in front of driver with plastic dash. Available in U.S.A. as hard top seven seater through 1974.

17) Series III, 109", Fall 1971-1985 Station Wagon

Produced in 10 and 12 passenger configuration. 21/4 petrol, 21/4 diesel and 2.6 petrol engines. V8 available in 1980. Tropical roof with air vents.

18) Series III, 109", 1971-1985 3/4 Ton Regular

Military Soft Top Reinforced body and chassis with two inch suspension extension. Standard equipment included oil cooler, twin fuel tanks, military waterproof lighting system, front and rear bumperettes with lifting rings. Available in 12v GS (general service) and 24v FFR (fitted for radio).

19) Series III 88" 1971-1985 Military Lightweight

Series IIA version 1968-1971. The early IIA Lightweights had their F.V. headlamps mounted on the radiator panel. Late IIA and III models had theirs on the wings. Designated "1/2 ton", it was designed to be air lifted by helicopter. The standard 1/4 ton was too heavy, the Lightweight heavier still, but it could be rapidly stripped of necessary panels to bring it within the helicopter's lifting capabilities.

20) Military 101" Forward Control 1974-1978

Designated "1 Ton" by British Military. Powered by a 3.5 litre V8, minimal front and rear overhang made it Solihull's most capable performer off road. Designed as a gun-tractor for the new British 105mm light gun which weighed 750 lbs more than the 105mm Pack Howitzer towed by the "3/4 ton" 109". Also available in hard top and Ambulance versions.

21) Series III, 109", High Capacity Pick-Up (H.C.P.U.)

1981-1983. Redesigned rear body for carrying loads of greater volume wider and longer load areas is separated from cab. Incorporates a full width tailgate. Replaced in late '83 by the 110" H.C.P.U.

22) Series III, 109", Stage One V8, Station Wagon 1979-1985

So named as they were "Stage 1" of a major investment scheme in 1978. 3.5 litre V8, using Range Rover gearbox and permanent 4WD. Radiator grille moved forward and new bonnet fitted to accommodate larger drive train. Available in all 109" body styles.

23) 110 Station Wagon 1983-Present

Introduction of coil spring suspension as used in the Range Rover. Styling changes include one piece windscreen with new roof design and wheel arches added to the wings to accommodate wider track.

24) 90 Station Wagon 1984-Present

Uses same engine and transmission as the 110. 92.9" inch wheel base.

25) 130, Crew Cab, High Capacity Pick-up 1991 to Present

Introduced in 1985. A 127" wheel base version of the 110". Aimed at commercial markets, it is ideally suited for special body conversions. Also offered in six wheel drive. After manufacturer most 130's are finished at Land Rover's Special Vehicle Operations facility at Solihull. Here 130's are completed to the owners custom design and specification.

26) 110 Station Wagon U.S.A. Model 1993

Limited edition. 500 vehicles sold in the United States. Featured a 3.9 litre V8 with a 5 speed gearbox and permanently mounted external rollcage.

27) 90 Soft Top U.S.A. Model 1994-1997

3.9 litre with 5 speed or 4.0 litre with automatic gearbox.

28) 90 Station Wagon U.S.A. Model 1995 and 1997

'95 Limited edition of 500. 1997 4.0 litre with automatic gear box.

Engine Specifications

2.25 LITRE PETROL

Capacity (piston displacement)	2286 cc (139.5 cu in.)
Number of cylinders	4
Bore	3.562 in. (90.47 mm)
Stroke	3.5 in. (88.8 mm)
Compression ratio	7:1 or 8:1
BHP at 4,250 rpm	77 or 81
Maximum torque	7:1 124 lb./ft. (17 mkg) at 2,500 rpm
Firing order	1—3—4—2
Piston speed at 4,280 rpm	2,500 ft./min. (12.6 m./sec)
Compression pressure (at starter motor cranking speed, with engine hot)	
7:1	145 lb./sq. in. (10.2 kg./cm ²)
8:1	160-170 lb./sq. in. (11.2-11.9 kg./cm ²)
Oil pressure, engine warm	
2,000 rpm	45 to 65 lb./sq. in. (3.16 to 4.57 kg/cm ²)

2.25 LITRE DIESEL

Capacity (piston displacement)	2286 cc (139.5 cu. in.)
Number of cylinders	4
Bore	3.562 in. (90.49 mm)
Stroke	3.5 in. (88.9 mm)
Compression ratio	23 to 1
BHP	62 at 4,000 rpm
Maximum torque	103 lb. ft. (14,00 mkg) at 1,750 rpm
Firing order	1—3—4—2
Piston speed at 4,000 rpm	2,333 ft./min.
Oil pressure, engine warm	
At 2,000 rpm	45 to 65 lb sq. in. (3.16 to 4.56 kg/cm ²)

2.6 LITRE PETROL

Capacity (piston displacement)	2625 cc (160.3 cu. in.)
Number of cylinders	6
Bore	3.063 in. (77.8 mm)
Stroke	3.625 in. (92.075 mm)
Compression ratio	7:1 or 7.8:1
BHP at 4,500 rpm	90 or 95
Maximum torque	7:1 132 lb ft. (18 mkg)at 1,500 rpm
	7.8:1 134 lb ft. (18,5 mkg) at 1,750 rpm
Firing order	1—5—3—6—2—4
Piston speed at 4,500 rpm	2,719 ft./min (826 m/min)
Compression pressure (at starter motor cranking speed, with engine hot)	
7:1	140 lb sq. in. (9.84 kg cm ²)
7.8:1	170 to 175 lb sq. in. (11.95 to 12.3 kg cm ²)
Oil pressure, engine warm	30-45 PSI

3.9 LITRE PETROL V8

Number of cylinders	Eight, two banks of four
Bore	93.98 mm (3.700 in)
Stroke	71.12 mm (2.800 in)
Capacity	3,947 cc (241 cu in)
Valve operation	Overhead by push-rod
Maximum power — B.H.P.	182 at 4,750 rpm
Maximum torque	232 lb. ft. at 3100 rpm
Firing order	1—8—4—3—6—5—7—2
Piston speed at 4,500 rpm	2,719 ft/min (826 m/min)
Compression pressure (at starter motor cranking speed, with engine hot)	
9.35:1	135 lb/sq.in
Oil pressure, engine warm	30-45 PSI

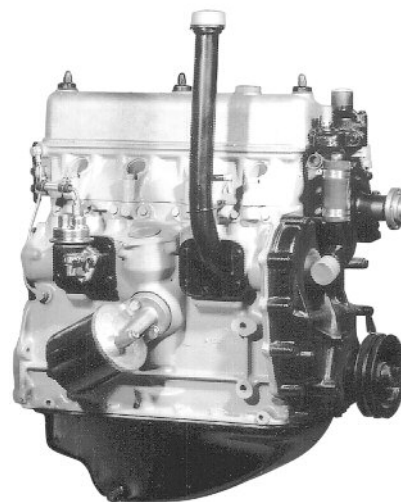

4.0 LITRE PETROL V8

Number of cylinders	Eight, two banks of four
Bore	94.0 mm (3.700 in)
Stroke	71.0 mm (2.913 in)
Capacity	3,947 cc (241 cu in)
Valve operation	Overhead by push-rod
Maximum power — B.H.P.	182 at 4,750 rpm
Maximum torque	233 lb. ft. at 3000 rpm
Firing order	1—8—4—3—6—5—7—2
Piston speed at 4,500 rpm	2,719 ft/min (826 m/min)
Compression pressure (at starter motor cranking speed, with engine hot)	
9.35:1	135 lb/sq.in
Oil pressure, engine warm	30-45 PSI

Rovers North New and Reconditioned Engines

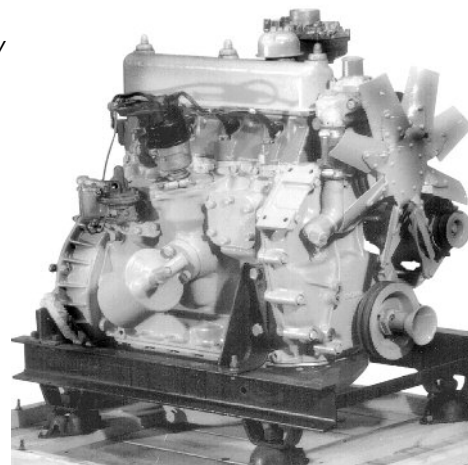

2.25 Petrol Engine Long Block

RNE569 \$3595.00
*Increase your Land Rover's performance without the expense and reliability problems of an engine conversion. This performance Land Rover engine is designed to run unleaded fuel and deliver 15% more horsepower. Sold as a base engine with fuel pump, water pump and oil filter assemblies. Designed for unleaded fuel with 8:1 compression ratio. It will bolt right into any 4 cylinder Ser. II, IIA, or III Land Rover. *Core charge for cylinder head only \$ 100.00*

2.25 Petrol Engine Complete

RNE568 \$3,895.00
*The complete solution to a tired engine. Ready to run. These engines are so complete with ancillaries they even include fan belt and fuel line. Designed for unleaded fuel, with performance 8:1 cylinder head. *Core charge for cylinder head only \$ 100.00*

"I want to thank you for everything that you have done for me, and I really do appreciate your patience. It makes it 200% easier and above all enjoyable to own Land Rovers with you. Everybody that is at Rovers North and I mean everybody is a professional and there is no doubt in my mind that I am one in thousands that have the same opinion of you. Keep up the good work, you have a very honorable business."

*Muchos Saludos.
 A. Spurlock, Arizona*

Td5 Oil Filter	RND269	\$ 18.97

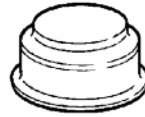

PC.V. System

Series Land Rovers fitted with a PC.V. (Positive Crankcase Ventilation) system allows the oil vapors from built-up crankcase pressure to vent through the system and burn off in the cylinders. This prevents the oil from venting into the atmosphere. It also helps alleviate the odor and film of oil that can develop on the engine and firewall. Make sure your Land Rover's PC.V. system is venting properly by inspecting the condition of the rubber diaphragm inside the PC.V. valve and by checking each of the rubber hose connections for cracks. A cracked diaphragm results in excessive exhaust smoke and broken hoses can cause a vacuum leak, resulting in poor running.

Amsoil Products

"First in Synthetics"

100% Synthetic Advanced Lubricants

Amsoil's superior performance provides up to four times the protection of conventional and other synthetic oils. Formulated for use in extreme hot or cold temperatures. Amsoil offers the most advanced fuel efficient synthetic lubricants on the market. Increase power, fuel mileage and virtually eliminate wear in your Land Rover.

10w-40 Engine Oil, 100% synthetic - quart	RNC845	\$ 6.50
75w-90 Gear Oil, 100% synthetic - quart	RNC811	\$ 8.50

Rover North Engine Kits

For 2.25 Litre Petrol Series IIA, III

To help you save time and money working on your Land Rover, we've simplified parts ordering on some service procedures by grouping the associated parts together into kits. The kits include all the parts required to carry out a particular service at a reduced price when compared to ordering all the needed parts separately.

Stellite Exhaust Valve Kit

Required for burning unleaded fuel in 2.25 petrol engines. Fits all models. Includes:	RNK111	\$	229.00
4 exhaust valve seats			4 exhaust valves
4 exhaust guides			4 exhaust guide seals

Cylinder Head Overhaul Kit

Here's all the components needed for a valve job on a 2.25 petrol engine. Includes:	RNK114	\$	489.00
4 intake valves			4 exhaust valves
4 intake guides			4 exhaust guides
4 exhaust valve seats			8 valve springs
8 valve spring collars			
16 retainer halves for valve collars			
1 head overhaul gasket set			

Engine Block Overhaul Kit

Reclaim worn cylinders and crankshaft on 2.25 petrol engine. State sizes needed. Includes:	RNK121	\$	799.00
4 pistons w/ring sets & pins			1 main bearing set
1 rod bearing set			1 thrust washer set
1 front engine seal			1 rear engine seal
4 rod bushings			1 block overhaul gasket set

Camshaft Kit

1 camshaft	RNK131	\$	459.00
1 cam cover gasket			1 cam bearing set
8 tappet assembly			1 cam woodruff key

Oil Pump Overhaul Kit

Ensure proper engine lubrication applicable to 2.25 petrol and diesel engines. Includes:	RNK144	\$	119.00
1 drive gear			1 idler gear
1 relief ball			1 relief sleeve
1 relief spring			2 lockers (for fastening to block)
1 O-Ring			1 locker (for pickup screen)
1 instruction sheet			

Timing Chain Kit

Replaces loose chain, worn gears and upgrades tensioner. Kit Includes:	RNK133	\$	279.00
1 Timing Chain			1 Chain Pad
2 Pad Lockers			1 Camshaft Gear
1 Crankshaft Gear			1 Pad Tensioner
			2 Tensioner Bolts

Diesel & V8 engine kits are also available. Please inquire.

Tech tip From Leaky...

when applying Hylomar gasket sealer, use only a thin film on both sides of most engine gaskets. The exception is on the valve cover where the cork gasket already has a self adhesive on one side (apply to valve cover) and NOT requiring Hylomar on the other. This will allow you to remove the valve cover later to adjust valves.

Carburetors - Series II, IIA & III

2.25 litre petrol

Solex

Series II, IIA thru 1967	RNC173	\$ 395.00
Reconditioned	RNC335	\$ 355.00

Zenith

1968 on	RNC959	\$ 259.00
---------	--------	-----------

Weber

This high-quality unit is our inexpensive solution to carburetor replacement. Italian crafted, this unit bolts onto Land Rovers previously equipped with Zeniths. Older Solex-equipped Land Rovers can use it with a conversion kit.

341CH	\$ 198.00
-------	-----------

Conversion Kit for Weber & Zenith

For fitting Weber or Zenith carburetor to Land Rovers previously equipped with Solex carb.

Includes gasket, base plate & bellcrank.	CONKIT	\$ 106.50

Heating

Rovers North's Mt. Mansfield Heater

Designed to fit Series II, IIA, III 2.25 litre Land Rovers, this is the biggest, hottest heater you can pack under a Land Rover's wing. This monster 20,000 BTU heater is available in two kit forms with the addition of an interior distribution box kit available for early Series II, IIA Land Rovers. Instructions included with kits.

Base Kit For Series II, IIA

Includes the heater core assembly (5) and the blower assembly (1) with air hose (4) and gasket (6). MHK IIBE kit also includes splash guard and hardware.

Series II, IIA up to 1969	MHKIIBE	\$ 730.00
Series IIA 1969-71	MHKIIBL	\$ 595.00

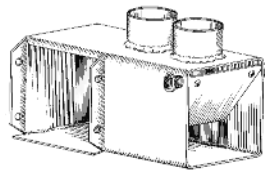

Complete Kit For Series II, IIA

Includes Base Kit plus coolant hoses, coolant flow valve, control cable, 2 speed switch (9), intake seal (2) and grill (3), thermostat with gaskets, wire harness (7) and hose clamps.

Series II, IIA up to 1969	MHKIICE	\$ 798.00
Series IIA 1969-71	MHKIICL	\$ 695.00

Interior Distribution Box Kit, Series II, IIA

Includes passenger side distribution box with doors for directing floor heat and defrost, defroster tubes and defroster pans for windscreen. Designed to fit Land Rovers from 1959 through 1967, this kit can also be installed in later Series IIA 1968 through 1971 without factory distribution systems.

Series II, IIA	DBKII	\$ 297.00
----------------	-------	-----------

Mt. Mansfield Heater Kit, Series III

Includes the heater core assembly (5) and the blower assembly (1) with air hose (4) and gasket (6) and clamps, large diameter heater

hose, pipe nipples and valve assembly with sealing washers, thermostat and gaskets.

Series III	MHKIII	\$ 695.00
------------	--------	-----------

Defroster Hose for other Land Rover heater systems

Sold in 6' lengths only for Ser. II and IIA dash.

Update to new style reservoir

Early Land Rovers were originally fitted with a metal clutch/brake reservoir. Our replacement kit provides Land Rover's new style plastic reservoir, the reservoir bracket and all connections required for a simple and direct replacement.

Reservoir Replacement Kit	RNK610	\$ 165.00
----------------------------------	---------------	------------------

Adapter between Master Cyl. RNF289 & Line Flex Hose	RNA909	\$ 9.75
Series II, IIA	RNE606	\$ 23.57
Late Series IIA	RNF169	\$ 43.00
Series III (4 cyl only)	RNF210	\$ 34.47
Line, Flex Hose to Slave Cylinder, Series III	RNE409	\$ 10.94
Clutch Pedal Return Spring	RNC455	\$ 3.57

Clutch Withdrawal Mechanism - Series II & IIA

1. Collar (contacts pressure plate)	RNA971	\$	14.17
2. Oil Seal for Cross Shaft	RNC725	\$	26.55
3. Bush for Cross Shaft	RNB376	\$	POA
4. Bush for Withdrawal Race Sleeve	RNA972	\$	31.00
5. Withdrawal Bearing	RNF297	\$	59.14
6. Operating Fork	RNB377	\$	129.09
7. Spring for Operating Fork	RNB593	\$	POA
8. Cross Shaft for Clutch Operation	RNB378	\$	16.50
9. Gasket, Withdrawal Housing to Bell Housing			
Suffix A inclusive	RNC723	\$.75
Suffix B onwards	RND054	\$	POA
10. 1/4" BSF Nut	RNB994	\$.50
11. Gasket, Cover Plate to Housing	RNC722	\$.50
12. 5/16" BSF Nyloc Nut	RNB379	\$.95

Clutch Slave Cylinders

Series II, IIA	RNB599	\$	135.77
Series III, 2.25 litre	RNC535	\$	81.10
3.9 litre	RNE222	\$	59.00

Rebuild Kit for Slave Cylinder

2.25 litre, Series II, IIA, III	RNC719	\$	10.00
3.9 litre, Series III, V8, 90, 110	RNC917	\$	19.50

Hydraulic Fluid

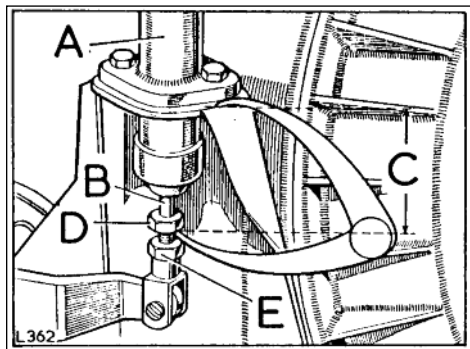

Warning: To protect rubber seals in your LR's hydraulic system use only Lucas brand or Castrol LMA brand fluid.

Lucas Brake Fluid

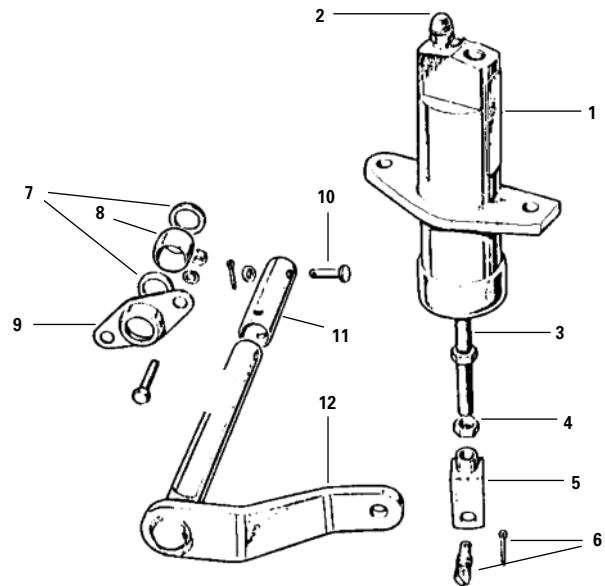

250 ml	GBF4250	\$	4.00
500 ml	GBF4500	\$	7.00
1 litre	GBF4100	\$	12.00

Set Adjustment for Series IIA Slave Cylinder

- A Slave cylinder
- B Push rod
- C 2 7/8" (73.4mm)
Check dimension with calipers as shown
- D Nut must be at end of push rod thread
- E Lock nut for push rod.

Clutch Slave Cylinder - Series II & IIA

(Located at Bell Housing area)

1. Slave Cylinder	RNB599	\$	135.77
2. Bleed Screw	RNC380	\$	3.71
3. Push Rod	RNC293	\$	14.53
4. Lock Nut	RNS034	\$.45
5. Clevis for Push Rod	RNB638	\$	3.86
6. Clevis Fixing Pin	RNA932	\$	2.06
7. Felt Ring for Spherical Bushing	RNA946	\$.40
8. Spherical Bush	RNC733	\$	17.79
9. Housing for Spherical Bush	RNB380	\$	9.95
10. Pin for Cross Shaft (two required)	RNC290	\$	3.95
11. Connecting Tube	RNC403	\$	49.00
12. Operating Lever 2.25 litre	RNC294	\$	20.47

Boot for Cross Shaft

Seals Cross Shaft to Bell Housing	RNC371	\$	10.50

Series IIA

Transmission Parts - Series II, IIA & III

When ordering transmission parts, it is very important that you know the suffix letter of your gearbox, especially Series II & IIA models. The suffix letter is stamped on the right side of the selector cover on the top of the main case. There will be a serial number with a letter after or below it. We just need the letter. (Land Rovers produced prior to 1960 will not have a suffix letter. Suffix A applies when ordering parts for gearboxes with no suffix letter).

1. Circlip for Output Shaft's Front Bearing	RNC731	\$ 3.17
2. Bearing for Front of Output Shaft	RNA942	\$ 29.95
3. High Gear Wheel	RNA947	\$ 89.47
4. Output Shaft	RNC541	\$ 110.00
5. Low Gear Wheel		
Up to suffix B	RNB381	\$ 102.00
Suffix C on	RNC281	\$ 103.98
6. Bearing for Rear of Output Shaft	RNC730	\$ 55.00
7. Speedo Drive Worm	RNC318	\$ 44.53
8. Output Oil Seal Front or Rear	RNE168	\$ 5.50
9. Mud Shield Flange	RNB501	\$ 4.12
10. Circlip	RNA943	\$ 1.75

11. Shim for Intermediate Gear			
Suffix A	RNA992	\$ 2.50	
Suffix B on	RNC399	\$ 2.50	
12. Thrust Washer			
Suffix A	RNB382	\$ POA

Shift Lever Parts

Series II, IIA, III, 2.25 & 2.6 litre

Main Lever

1. 2.25 litre, LHD	RNT014	\$ 89.47
2.6 litre, LHD	RNE177	\$ 63.50
2. Knob		
Series II, IIA, III round press-on type, as shown, requires bush RNT022	RNT021	\$ 4.99
3. Bush for Round Knob	RNT022	\$ 1.00
4. O-Ring for Lever Base	RNE163	\$ 1.09
5. Locating Pin	RNC179	\$ 3.03
6. Lever Housing	RNA959	\$ 42.81
7. Spherical Seat	RNA960	\$ 1.50
8. Spring for Main Lever	RNB398	\$ 2.00
9. Special Washer	RNA961	\$ 4.28
10. Circlip for Main Lever	RNA962	\$.85
11. Lever Base	RNA985	\$ 21.65
12. Locker	RNB574	\$ 1.95
13. Fixing Bolt for Lever Housing	RNC726	\$ 1.12
14. Adjusting Screw	RNC686	\$.37
15. Lock Nut	RNF215	\$.26
16. Reverse Gate	RNC160	\$ 24.60
17. Lock-out Springs for Reverse Gate	RNA973	\$ 2.54

4WD High Range Lever Parts All Models

18. Yellow Knob	RNT013	\$ 4.53
19. Yellow Knob Lock Nut	RNB994	\$.50
20. Rod	RNB399	\$ 12.50
21. Pivot Bolt	RNB400	\$ 1.75
22. Selector Rod Spring	RNC400	\$ 2.91
23. Selector Rod Spring Base	RNA991	\$ 2.51
24. Right Angle Selector Pin	RNA982	\$ POA
25. Sealing Ring for selector pin	RNB601	\$ 1.00
26. Dust Cover for output shafts	RNB600	\$ 27.79
27. Yoke for high range lever	RNA930	\$ 4.95

4WD Low Range Lever Parts All Models

28. Red Knob	RNA956	\$ 5.71
29. Lock Nut for knob	RNE451	\$.71
30. Lever	RNE197	\$ 60.45
31. Anti-Rattle Spring for lever	RNB540	\$.55

Selector Shaft Parts

Series IIA

1st & 2nd Selector Fork	RNB401	\$ 36.00
Selector Seal	RNB626	\$ 1.50
Detent Spring	RNB984	\$.43
Detent Ball	RNC919	\$.70
3rd & 4th Selector Fork	RNE559	\$ 135.00
Selector Seal	RNB626	\$ 1.50
Detent Spring	RNB984	\$.43
Detent Ball	RNC919	\$.70
Reverse Selector Fork	RNB402	\$ 38.25
Selector Seal	RNB627	\$ 1.51
Detent Spring	RNC398	\$ 1.50
Detent Ball	RNC919	\$.70
Lock Out Spring (2 required)	RNA973	\$ 2.54

Series III

1st & 2nd Selector Fork	RNC489	\$ 60.45
Selector Seal	RNB626	\$ 1.50
Detent Spring	RNB984	\$.43
Detent Ball	RNC919	\$.70
3rd & 4th Selector Fork	RNE559	\$ 135.00
Selector Seal	RNB626	\$ 1.50
Detent Spring	RNB984	\$.43
Detent Ball	RNC919	\$.70
Reverse Selector Fork Suffix A	RNC490	\$ 111.25
Selector Seal	RNB627	\$ 1.51
Detent Spring	RNC398	\$ 1.50
Lock Out Spring (2 required)	RNA973	\$ 2.54

Rovers North is owned and staffed by Land Rover enthusiasts – with expertise and experience to share.

High-Ratio Series IIA, III Transferbox

Ready to bolt in! NOT a Kit.

Re-assembled, ready to bolt in. Includes transmission brake assembly (not shown) Increases your road speed by 32% with *no change in low range performance!* Eliminates the need for an overdrive for quieter, more reliable road performance. Normal high ratio is 1.148:1, New Hi-Ratio Modified is 0.781:1, low range ratio is unchanged. Entire transferbox assembly is rebuilt including all new bearings, seals and gaskets. *Will not work with external overdrive.*

2. Special Nut for Inner Column		RNC369	\$ 7.64
3. Lock Washer for Nut		RNE421	\$ 1.00
4. Screw for Securing Canceler to Wheel		RNC695	\$.43
5. Steering Wheel, Series IIA, III, Late '67 on		RNS113	\$ 67.70
Wire Spoked Steering Wheel, Early Ser II, IIA		RNC193	\$ 598.00
6. Spring Washer		RNE408	\$ 6.28
7. Canceler for Directional	Series III	RNB403	\$ POA
8. Adjustable Ball Race		RNB621	\$ 39.95
9. 9/32" Steel Balls	(20 used)	RNC918	\$ 1.75
10. 3/8" Steel Balls	(12 used)	RNC919	\$.70
12. Gasket Column to Box		RNB404	\$ 3.50
13. Roller for Main Nut		RNB405	\$ 10.25
14. Bearing for Column Top,	Late IIA & Series III	RNE592	\$ 19.95
	Ser IIA, Late '67 on	RNC611	\$ 49.00
15. Outer Column	Series III	RNC566	\$ 166.21

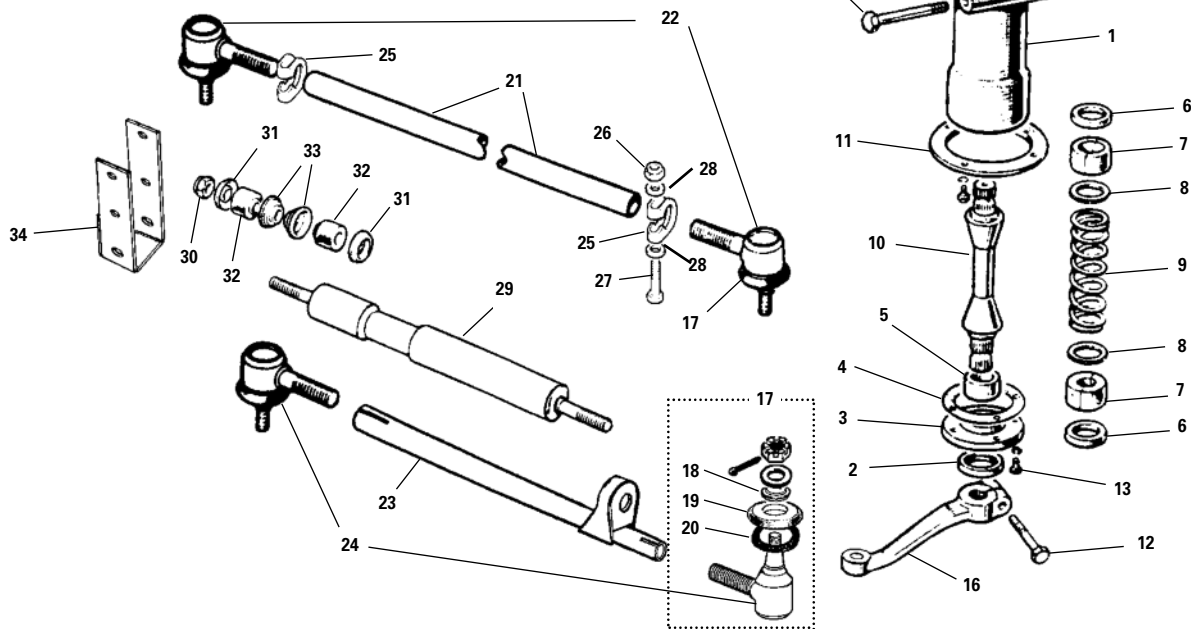

16. Base for Outer Column	Series III	RNC643	\$ POA
17. Inner Column (includes main nut assy.)	Ser IIA Late '67 on	RNC799	\$ 595.55
	Series III	RNC567	\$ 239.00
18. Adjuster Screw for Rocker Shaft		RNB589	\$ 12.75
19. Lock Nut for Adjuster Screw		RNB590	\$ 6.00
20. Rocker Shaft	Series II, IIA	RNE429	\$ 218.00
	Series III	RNE429	\$ 218.00
21. End for Rocker Shaft	Series III	RNC642	\$ 18.50
22. Gasket Rocker Cover to Box		RNC212	\$ 4.77
23. Fill Plug		RNB622	\$ 7.75
24. Bush for Rocker Shaft		RNB587	\$ 10.92
25. O-Ring Seal		RNB619	\$.75
29. Lock Nut for Drop Arm		RNE454	\$ 5.23
30. Joint Washer	0.002 in.	RNB620	\$ 3.40
	0.010 in.	RNC230	\$ 4.33
31. Gasket for Bottom Cover		RNB588	\$ 1.97
32. Rubber Strip for Clamp		RNB966	\$ 1.79
33. Clamp for Steering Column	Series II, IIA	RNB921	\$ POA
	Series III	RNB406	\$ 9.50
34. Cover for Steering Column Seal	Series II, IIA	RNE271	\$ 2.97
	Series III	RNE252	\$ 8.07

Steering Relay Unit

Series I, II, IIA, III

Mounts in front Chassis member. Requires regular lubrication with 90wt oil.

1	Steering Relay Unit, complete assembly	RNE493	\$	149.92
2	Oil Seal for Relay	RNA923	\$	3.85
3	Retainer for Oil Seal (early-as shown)	RNC774	\$	POA
	Retainer for Oil Seal (late)	RNA966	\$	109.30
4	Gasket for Retainer	RNC775	\$	1.26

5.	Distance Piece for Shaft (all models pre-1962)	RNC064	\$	POA
6.	Thrust Washer for Shaft (early-as shown)	RNB526	\$	9.50
	Thrust Washer for Shaft (Late)	RNC667	\$	30.98
7.	Split Bush for Housing (four required)	RNC304	\$	4.77
8.	Washer for Spring	RNA969	\$.86
9.	Spring for Housing	RNA968	\$	4.14
10.	Shaft for Relay	RNC415	\$	59.00
11.	Flange Plate for Securing Relay Bottom	RNA944	\$	5.47
12.	7/16 UNF Bolt for Securing Arms	RNC937	\$	1.00
	7/16 Nyloc Nut	RNE477	\$	1.25
13.	Special Bolt for Fixing Retainer to Housing	RNB407	\$	1.25
14.	5/16 UNF Bolt for Securing Relay to Chassis	RNC936	\$	9.04
	5/16 Nut	RNS034	\$.45
	5/16 Washer	RNS037	\$.40
15.	Top Relay Arm	RNC265	\$	72.55
16.	Bottom Relay Arm	RNC287	\$	62.87

17. Tie Rod Ends

Fits all Models, Series I, II IIA, III through axle suffix D. Complete with boot and hardware.

	Right Hand Thread	RNF204	\$	28.85
	Left Hand Thread	RNF205	\$	28.85
18.	Small Spring for Boot	RNC724	\$.49
19.	Boot for Tie Rod End	RNA925	\$	4.90
20.	Large Spring for Boot	RNA926	\$	1.75

21. Steering Track Rod

Connects right wheel to left wheel. Series IIA, III RNC243 \$ 88.50

22. Track Rod Assembly

Includes Tie Rod Ends & Clamps. Series IIA, III RNC651 \$ 169.26

23. Steering Drag Link Tube

Includes damper bracket. Connects steering relay to front wheel. Series IIA, III RNE415 \$ 128.15

24. Drag Link Assembly

Includes tie rod ends & clamps with bracket for factory damper. Series IIA, III RNE581 \$ 278.80

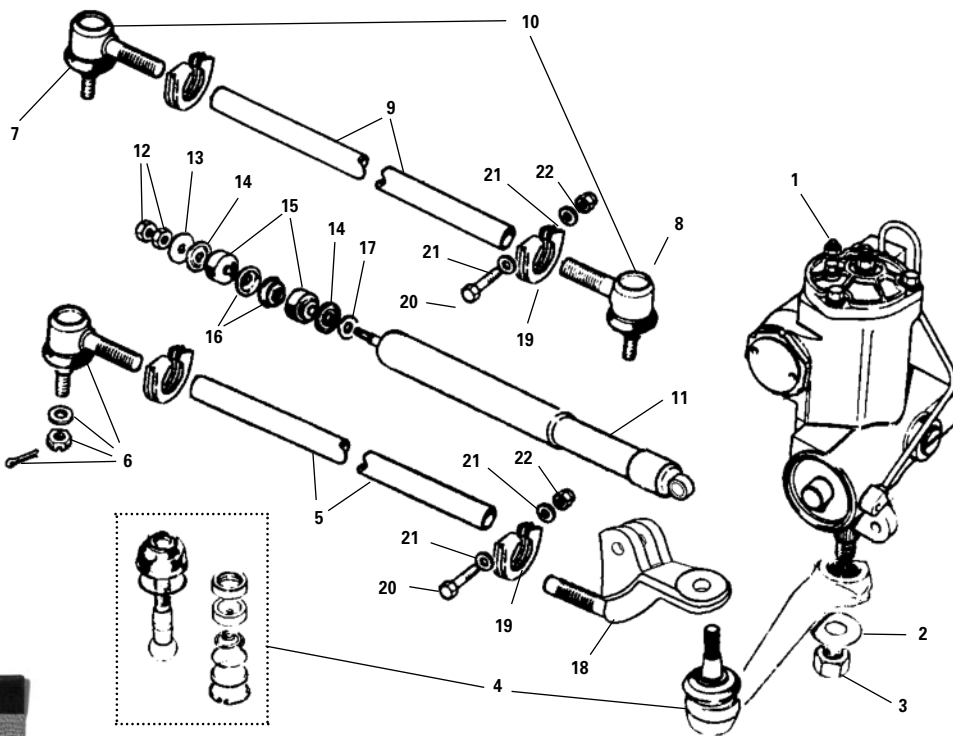

25.	Steering Clamp	RNS076	\$	1.95
26.	Clamp Nut	RNS075	\$.50
27.	Clamp Bolt	RNS073	\$.99
28.	Washer	RNS074	\$.50
28a.	Clamp Kit (includes # 25, 26, 27 & 28)	RNK553	\$	33.08

29. Steering Stabilizer (Optional)

	Includes all hardware & bushings for mounting Series IIA, III			
	Genuine	RNS122	\$	79.00
	Bilstein	RNA245	\$	85.00
	Old Man Emu	OMESD11	\$	69.00
30.	Lock Nut	RNE476	\$.75
31.	Concave Washer	RNC331	\$	1.00
32.	Rubber Bushing	RNC447	\$	4.74
33.	Stepped Washer	RNC882	\$	2.03

34. Frame Bracket for Factory Dampers

	Series II, IIA	RNC364	\$	6.50
	Series III	RNE417	\$	32.89

Steering - Defender 90, 110

4. Ball Joint Kit For Drop Arm	RNS084	\$ 54.00
5. Drag Link Tube	RNC876	\$ 56.00
6. Drag Link Ball Joint Kit, RH Thread	RNS069	\$ 29.95
7. Track Rod Ball Joint Kit, RH Thread	RNS069	\$ 29.95
8. Track Rod Ball Joint Kit, LH Thread	RNS070	\$ 29.95
9. Track Rod Tube	RNE448	\$ 54.00
10. Track Rod Assembly	RNE449	\$ 143.44
11. Steering Stabilizer Assembly (Includes all hardware and bushings for mounting)	RNF171	\$ 88.00
12. Nut	RNC810	\$.90
13. Flat Washer	RNF427	\$.69
14. Stem Washer	RNC758	\$ 2.50
15. Rubber Bushing	RNC447	\$ 4.75
16. Stepped Washer	RNC882	\$.95
17. Flat Washer	RNC573	\$ 1.14
18. Cross Rod Eye End	RNE442	\$ 91.00
19. Steering Clamp	RNS076	\$ 1.95
20. Steering Bolt	RNS073	\$.95
21. Washer	RNX034	\$.65
22. Steering Nut	RNS075	\$.50

Steering - Defender 90, 110

1. Power Steering Box Assembly New	RNS004	\$ 498.00
Reconditioned Steering Box	RNS111	\$ 257.75
Seal Kit, Power Steering Box	RNF322	\$ 145.00
2. Locker	RNS078	\$ 2.50
3. Nut	RNS083	\$ 7.50
Core charge		\$ 250.00*
Core charge		\$ 250.00*

*Core charge on Reconditioned Components is refunded when the worn rebuildable component is returned.

Warning:
To protect the rubber seals in your Land Rover's hydraulic system only use Lucas brand or Castrol LMA brand fluid. Substitutions may cause seal failure.

"Recently I called your company to ask a question about my Series IIA Land Rover. I want to thank you for the help that was given. The civility and help I was given were more than what was expected. I truly thank Rovers North for the great service."

Trusty pit crew

Matthew Martin's beautifully restored 1966 RHD Series IIA 109

"I have yet to find a company that is as responsive and as consistent as Rovers North. It is amazing to me that with the volume of phone calls answered, with questions as simple as "How do I change my oil", to as complicated as fitting a new engine, each one is treated just as important as the other, day in and day out. To me you're not some distant voice on the phone, you are part of the community and the bobby of driving, collecting and admiring Land Rovers."

M. Martin
Vermont

Replacement chassis parts
Welding is required to install these parts and should be referred to a professional.
For the do-it-yourself Land Rover owner the job requires a cut off wheel and/or torch, 4" grinder and a 60 amp welder. Try 3/32" 6011 rods at 60 amps (45 amps DC) for best results.

Land Rover

does not supply the complete bulkhead or replacement footwell sections. We offer these replacement parts as a solution for the owner who is restoring his bulkhead. Made from Galvanized metal to help prevent corrosion these can be welded, bolted or pop-riveted into place. Simplified quick repair version does not require bulkhead removal. The "RNF" pieces as illustrated, are precision manufactured to exactly duplicate the original bulkhead.

The panels with the "RNF" prefix, are precision manufactured to exactly duplicate the original bulkhead.

18 ga. Galvanized Replacement Footwell Parts for 2.25 litre Bulkheads

1. Toe Board

Replaces front angular floor section. Galvanized.

Right Side as illustrated	RNF0003	\$	45.50
Simplified quick repair version	FLOOR3	\$	35.25
Left Side as illustrated	RNF0002	\$	45.50
Simplified quick repair version	FLOOR2	\$	35.25

2. Kick Panel

Triangular panel located on the inside of the door post. Has flanged corner to interconnect with replacement toe board to reconstruct a rusted through floor area. Galvanized.

Left Side complete panel	RNF0001	\$	36.00
Simplified quick repair version	FLOOR1	\$	35.25
Right Side complete panel	RNF0004	\$	36.00
Simplified quick repair version	FLOOR4	\$	35.25

3. Footwell Top

Left Side	FLOOR7*	\$	49.00
Right Side	FLOOR8	\$	30.00

3a. Footwell Replacement Assembly - Galvanized

Parts 1, 2 & 3 assembled as a unit. Replaces entire footwell. Ribbed

Driver's Side	RNF0005*	\$	158.00
Passenger's Side	RNF0006	\$	129.00

*The brake pedal cutout is for single system Master Cyl. When installing later dual power Master Cyl, the cutout will need to be lengthened.

4. Door Post Replacement

Now supplied as 2-piece replacement. Extends further up the bulkhead and includes hole for upper hinge, ensuring accurate hinge spacing.

RH Door Post 25" tall	CHAS30	\$	59.50
LH Door Post 25" tall	CHAS31	\$	59.50

Body - Interior Defender 90

"Dear Rovers North:

I wanted to thank you and your staff for the great service I have received since I discovered your company. I have found the staff at Rover North to be pleasant and extremely competent. I recently dealt with Artbur, and he was more than happy to help me locate my problem. He even faxed over some directions for me to perform some tests. I am very impressed with Rovers North, and I am looking forward to continuing to do business with you."

*D. Lamb

The McPberson's pristine, family restored 1960 109 Series II Station Wagon (left, Jim McPberson, and his sons, Reed and Kyle).

"I'll say it right up front. For my money, the only parts to use are Genuine Parts - I have been burned almost every time I have wavered from that line. If your time means anything to you, and I sincerely hope it does, the extra time it often takes getting an aftermarket part to fit correctly, and undoubtedly having to replace it sooner, is outweighed by the few dollars of potential initial savings.

The UPS truck became a regular sight in my neighborhood, bringing shiny new Genuine Parts from Rovers North to my door. What a great company - not once in the ordering I did was there ever a mix-up."

J. McPberson
Washington

We have a large selection of new take-off and used door assemblies in stock, please inquire.

"As some of you may remember, it took a little longer to get the frame than first thought. It turned out perfectly that way, as I was forced to keep working on the bits and pieces. The bulkhead was completely prepared, all painted surfaces were cured and ready to go, and I had a long time to be sure my wiring was right... Keep the pictures and thanks for all the help"

Body Parts

*"Dear folks at Rovers North,
 Thank you so much for 14 years of superlative service
 and quality parts. My two inches of past invoices is a strong
 testament that I am a happy customer.
 You all are the finest in the field and a true value.
 Right now, as I write this, Mike Searfoss is solving a prob-
 lem for me as many have done in the past. I salute you and
 want to express to you that if any of you are ever in central
 Alabama please swing by.
 Sincerely,
 R. Dryer
 Alabama*

Fits All Models with Tailgate or Rear Door	RNA2550	\$ 495.00
Heavy Duty alternative to Genuine Model		

So how much did you save on that part?

Quality and price are related. Land Rovers cost more because the components that they are assembled with are of higher quality and cost more. So don't be fooled when someone offers you the "same part" for a lot less. After all, in today's competitive market place, you really do get what you pay for.

NEW! Superior Quality Defender 90 Fabric Soft Top

Everything you wanted in a custom soft top for your Defender 90 is here. Constructed with superior quality black fabric it will not fade, shrink or crack like the original. This top will look as good as the day you first put it on, year after year. Superior features include; weather secure door seals, heavy duty zippers, improved visibility, and HD Permaclear windows. An awesome fit on your existing belt rail system virtually ends the headaches of all the stretching and prying and keeps you happy and dry when the weather is foul.

Includes three zip out windows, carrying pack and instructions.

RNA90ST	1994-97 Defender 90 Soft Top	\$1,829.00
RNE245	1994 D90 Belt Rail Kit*	\$ 45.00
RNE246	1994 D90 Tailgate Bar Kit*	\$ 65.50

**The 1994 Defender 90 soft top is equipped from the factory with snaps and requires a belt rail and tailgate bar kit to be installed to use this top. 1995 and 1997 Defender 90 soft top models do not require this kit.*

Surry top on 1997 Defender 90.

Get ready for summer with these great open air soft tops!

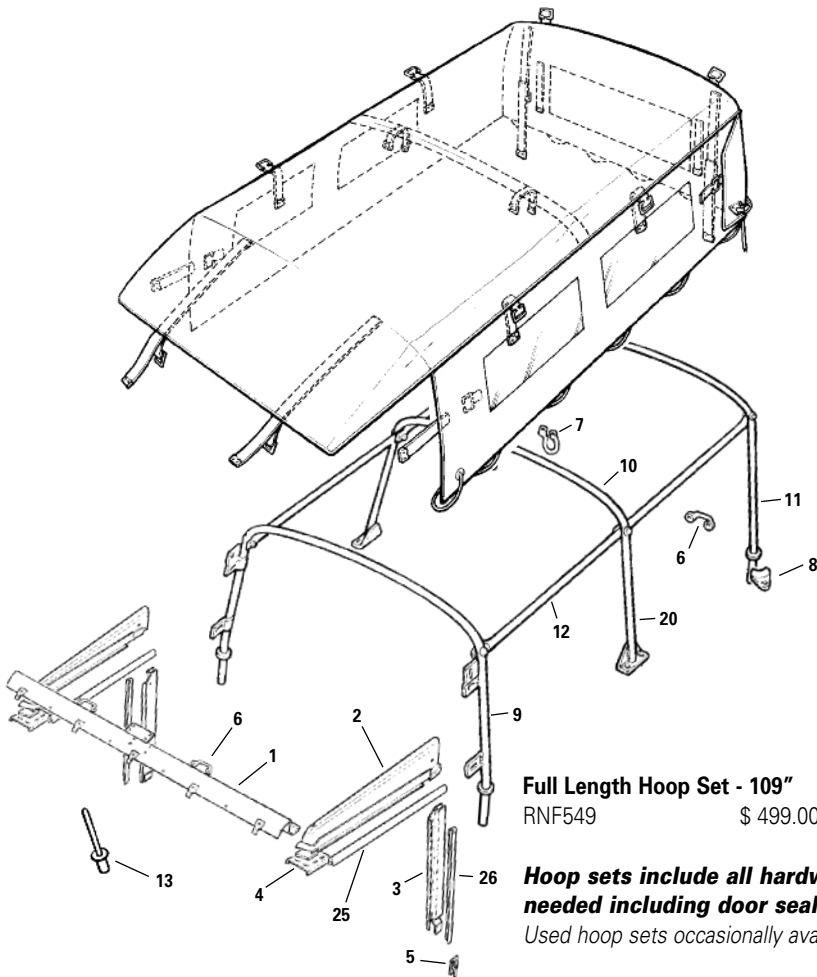

Made with the same exacting standards as our full soft top, with or without straps. Constructed with black fabric.

Canvas Preservative

Keeps your canvas top waterproof 1-gallon container CANVAK \$ 25.00
(One gallon covers one 109" full length top.)

Preserving the fit of your canvas top

Your new canvas top will shrink if you allow it to get wet while the sides and/or back are rolled up. To help prevent shrinkage when canvas top is new, keep sides and back fully secured down and allow it to get wet and let dry several times.

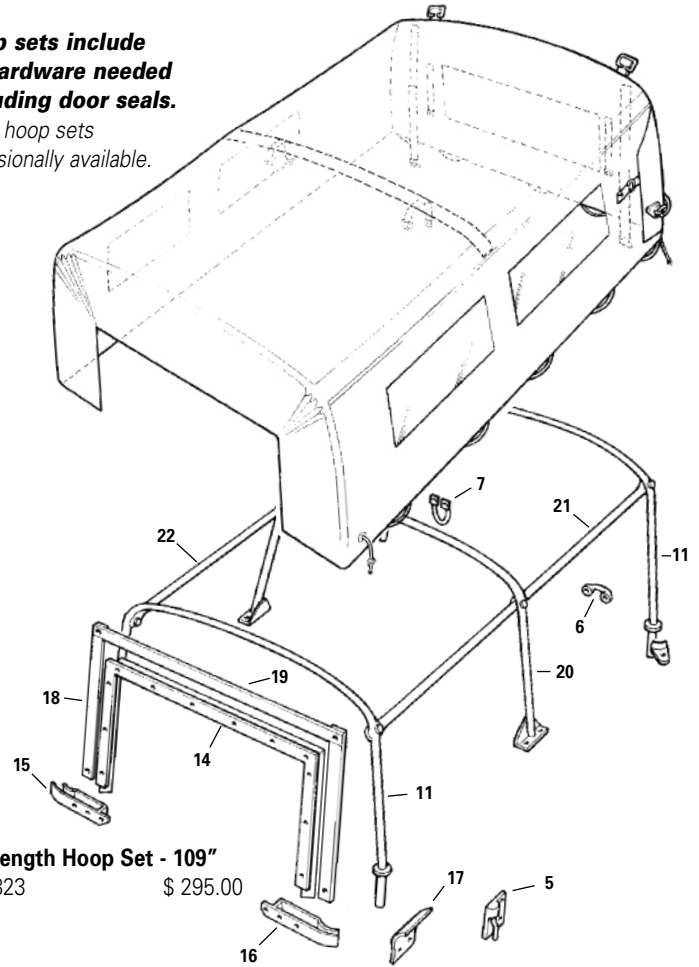

This lets the canvas conform to the vehicle and hoop set.

Annual applications of canvas top preservative greatly prolongs the canvas life.

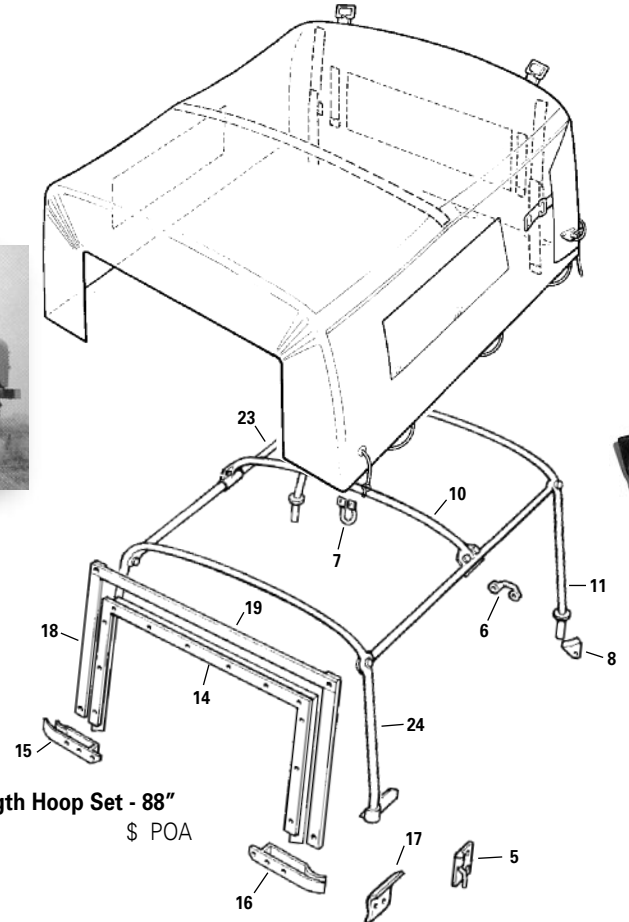

Body Parts

Hoop sets include all hardware needed including door seals.

Used hoop sets occasionally available.

Order the correct 4 cylinder distributor tune-up parts

There are four different types of distributors that can be fitted to a 4 cylinder (12 volt) Land Rover and the parts are not interchangeable. Select from the following components to ensure that you receive the correct tune-up parts. When replacing the distributor assembly we offer the Lucas model which is recognized as a better performing distributor than the Ducellier model.

Rovers North Roof Racks

The World's Finest Custom Built Roof Racks for Land Rovers comes with our Exclusive 10 Year Guarantee!

Enhance your Land Rover's function and ability in overland travel with a purpose-built stainless steel expedition roof rack by Rovers North, custom built to your specifications in our workshop facilities.

All Rovers North Roof Racks include:

- Precision-built with high strength corrosion-proof stainless steel.
- Superior mounting system and load deck design
- Easy bolt-on installation, requires no drilling or special tools
- Custom manufacturing ability to meet your special equipment and design requirements

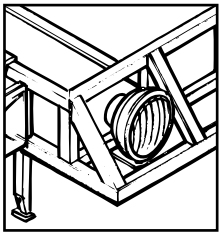

Our master craftsmen are able to custom fabricate a Rovers North Expedition Rack to any of your specifications.

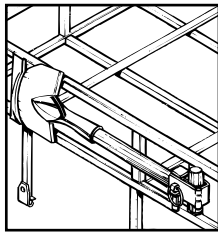

Custom Alcan 3/4 roof rack with rear access ladder shown on Defender 90 Station Wagon.

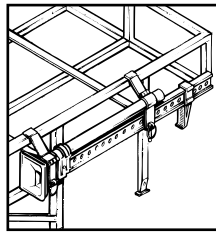

Roof Rack Options

Lighting

Shovel, Axe or Pick

Jack mounting

Your choice of the following options:

- Front and rear lamp mounts with internal wiring
- Spare wheel mount
- Built on carrier for jack, shovel, pick, axe and other equipment
- Water and fuel can mounts
- Custom decking and wall heights
- Lockable mounts for rack and accessories

Below is a price guide for expedition-ready base units with your choice of 4" or 6" sides. Should you require any optional equipment or design features, please inquire as these costs are additional.

 RNB897 ARB Bull Bar only.....\$ 739.00
 RNA089 Adapter for USA 110.....\$ 160.00

Don't forget to upgrade your springs

Due to the added weight of the ARB Bumper or the Rovers North Heavy Duty Bumper with winch, we recommend that you upgrade your road springs to accommodate the additional load. Our choice is heavy duty Genuine Land Rover springs (page 95) for maximum performance both on and off road.

Warn Winches & winch kits

Too Heavy?

When selecting a winch, consider the weight of your Land Rover. Then consider all of the resistance that deep mud, soft sand and large rocks provide when you need your winch the most! Land Rover recommends fitting a winch that is load rated to a minimum of twice the vehicle's weight.

9,000 lb. Warn Winch

12 volt DC. Includes 12' hand held remote and roller fairlead. Requires Mounting Kit listed below.

Warn 9 \$ 995.00

Warn Snatch Block

Used to double the pulling power of your winch and to aid in angled pulls.

RNC713 Warn Snatch Block.....\$ 59.00

Land Rover Winch Accessory Kit

Land Rover Winch Kit includes; gloves, snatch block, tree strap, hook, and carrying bag.

RNA690 Land Rover Winch Accessory Kit.....\$ 259.00

Leather/Kevlar Winching Gloves

Made with grey leather and tough cotton these gloves are built to withstand the rigors of winching. Kevlar thread stitching. Land Rover logo in green.

RNF573 Leather/Kevlar Winching Gloves\$ 12.50

Shackle Recovery Set

Made of solid steel, this is a stout, easy to use recovery hitch. Shackle and hitch pin included as shown.

RNA1022 Shackle Recovery Set.....\$ 69.00

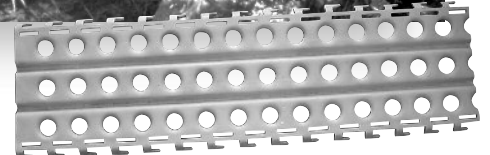

Defender 110 using aluminum platforms for traction over a log bridge.

Perforated Aluminum Platforms

Available new or military surplus. These 5' floatation mats help keep your vehicle moving over soft ground. Made from heavy gauge aluminum, yet only weigh 14 lbs. each. Not intended for use as a bridge but for traction over marshy surfaces.

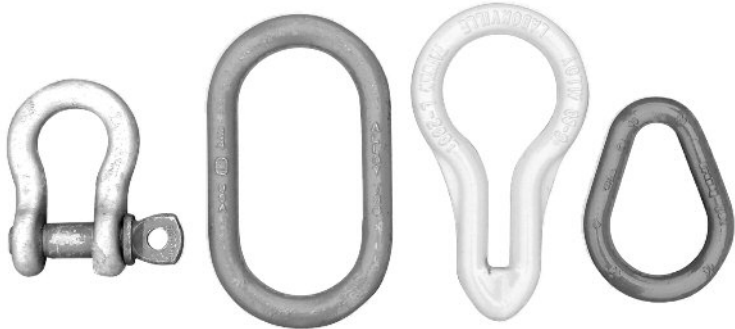

- RNP1004 New 5'\$ 295.00 pr
- PAP05 Military surplus 5'\$ 195.00 pr

Accessories

Alloy Recovery Loops

Made of rust free alloy material for heavy duty recovery work.

3/4" "D" Shackle

Essential for attaching a tree strap to winch cable or recovery strap to vehicle.
RNP0120 \$19.00

Recovery Ring

Versatile tool for winching and vehicle recovery. Dimensions are 41/2" x 65/8"
RNR1800 \$28.50

Choke Ring

Allows you to lock on to a chain link. For use with recovery strap or winch (see photo below).
RNR1756 \$19.00

Pear Ring

Similar to recovery ring in a smaller size. Focuses winch hook or strap shackle to one end.
RNR1753 \$19.50

Heavy Duty 3/8" Alloy Chain Ends

Professional quality exceeds Land Rover vehicle load and winch capacity requirements. Lightweight rust free alloy, essential for safe recovery. Choose any combination of recovery ends with any length of 3/8" Grade 80 alloy chain (listed below) and we will custom assemble it for you.

Slip Hook w/Latch

Absolute finest quality alloy recovery hook, available. By Pewag of Austria.
RNR1755 \$39.90

Slip Hook

Ideal for working with downed trees. Smooth design, allows chain to tighten without catching on obstacles.
RNR1750 \$21.50

Grab Hook

Locks into chain links to form a non-slip loop. Built in skid guards maintain a firm connection. By Pewag of Austria.
RNR1754 \$29.50

Fixed Clevis

Install on the end of your chain and hook combination to create the ultimate in versatility.
RNR1752 \$19.80

Various combinations of alloy ring, hook and chain recovery gear shown above

Beefy 4"x30' Tow Strap

Size does matter. This beefy 4" recovery tow strap is big enough for most extractions. 40,000lb breaking strength. 4"x30' (also available in 2" width).
RNA1430 4"x30' Tow Strap ..\$ 69.00
RNA1230 2"x30' Tow Strap ..\$ 45.50

SUPERWINCH Superwinch Tree Strap

The tree strap will allow you to use a tree as a winch anchor point without harming the tree. Using a cable or chain around a tree will injure and possibly kill the tree. 8' long, 30,000lb capacity.
RNB583 Superwinch tree strap.....\$ 47.50

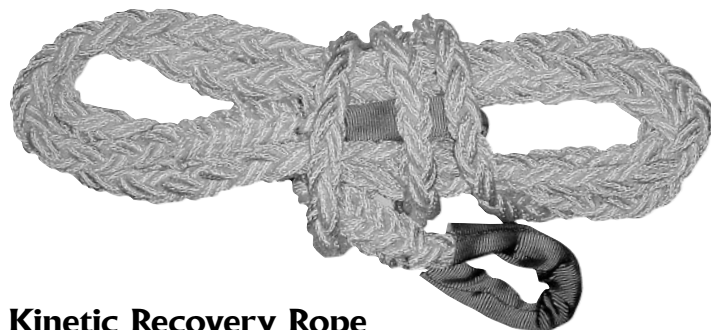

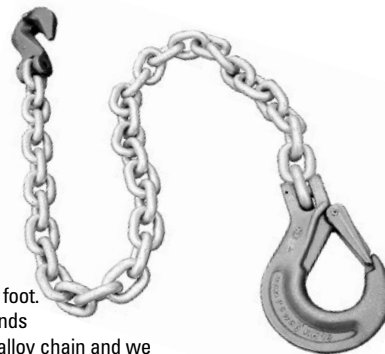

Honeycomb Waffle Mat Bridges

Glass Reinforced Plastic "waffle" bridges. In boggy conditions the footprint of a tire is increased over ten fold which gives a vast increase in flotation. When load bearing they do 'flex', but return to their original shape when the load is removed. They measure 4'10" L x 14" W. (sold in pairs)
RNW1000 GRP Bridges.....\$ 390.00 pr.

pewag

Super Strong 3/8" Alloy Chain

Lightweight and rust proof. Sold by the foot. Choose any combination of recovery ends (shown above) with any length of 3/8" alloy chain and we will custom assemble it for you.
RNR1700\$ 4.75 per foot

Kinetic Recovery Rope

An extremely effective recovery tool that allows you to use vehicle momentum without the sudden shock you would experience from using a chain. Requires securely fastened recovery hitches for safe use.
KRR001 \$149.00

Hand Throttle Kit for Defender 90, 110

This manual locking control allows you to increase engine RPM without having to keep your foot on the accelerator. Ideal for stationary use, like winching or jump starting when increased alternator output is desired. Mounts to right side of steering column where blanking plug is for easy access from the drivers position.
RNK707 \$119.00

Rovers North Radiator Muffs

- Dramatic increase in your heater's output
- Quicker warm-up
- Reduced engine stress

In the snowbelt, this simple accessory will make a big difference in a Land Rover's winter performance. By controlling the airflow through the radiator in freezing weather, the engine can run at its optimum operating temperature. This means reduced engine wear and increased heater output. We have developed this radiator muff exclusively for our customers and we believe it is the finest one you will find.

Made of heavy Cordura® Nylon with sturdy fasteners for a secure fit and long life.

Suspension

Which Suspension?

We encourage you to call us and benefit from our years of experience with different Land Rover suspension systems. We will help you choose a suspension kit that is best suited to your Land Rover. We have assembled our most popular suspension kits on these pages. Follow these essential guidelines to help you to determine which suspension is right for you.

- Define your driving requirements
- Estimate the weight of any additional accessories added to your Land Rover
- Know your tire and wheel sizes

Old Man Emu Standard Heavy Duty Suspension Kits

In the most extreme off-road conditions, you have to rely on your suspension working well. These kits are designed for enthusiasts who like to spend their time off-road. For Defenders 7.50-16 through 265/85-16.

Nothing Out Performs Land Rover Heavy Duty Springs

When traveling overland with a loaded vehicle, up-grading your suspension is essential. Our choice for durability is Land Rover's heavy duty springs. They will add approximately 1 1/2" of extra body clearance to your Land Rover and greatly improve stability when negotiating poor roads. Sets include both front and rear road springs. Match them with a set of Bilstein shocks for a superior ride or a set of Ironman shocks for improved handling under arduous conditions.

Defender 90, 110 Performance Exhaust Systems

Performance Catalytic Converters for Defender 90, 110

Our new "Y" pipe assembly, including catalytic converters, provides owners of Defender 90s and 110s with the first quality alternative to the genuine part. Decreased back pressure and twin tube construction result in noticeably improved performance. Carefully positioned tubing parallels the chassis, protecting both catalytic converters and resulting in increased ground clearance. Guaranteed to be the easiest "Y" pipe to install, this kit comes complete with the "Y" pipe assembly, manifold gaskets, all hardware and installation instructions.
